Hello Glenbard!

It's almost May! Can't believe it. Next session is our last before the July break!!!

It will only be 7 weeks. Don't miss these opportunities to take advantage of Tuesday training. Private time for you, Rally, and conformation which has been quite full!

It is amazing how FULL Monday night classes are-what a great job our instructors are doing! Due to the commitment of our trainers and our students, we will be offering a special bridge class to open for our novice students who have been in my class for some time. This gives the opportunity for Mary Schuenemann to assist Ed Gegenheimer in Novice. Mary came to GABOC for Rally drop in, joined our Novice Class with her awesome Golden Retriever, and enjoyed herself so much she said yes when we asked her to volunteer! New member Barb Misch has stepped up to assist to cover on Tuesdays when I cannot make it to training. Barb has a terrific Cattle Dog who is on her way to achieving great things in open. Way to go and so many thanks for your volunteering.

May 2nd is our next correction match. We have a slot ready just for you! Sign up online or drop in. Additional stewards are always welcome.

June 4th is our annual banquet. Again, many thanks to Candy Ellis and Pat Senne for making all the arrangements to make this a special night for our club members. We invite EVERYONE to attend. New members, come and see what our awards banquet is all about and have a great evening!

Has everyone noticed the literature on the table on training nights? Ed Gegenheimer has done a great job on having information printed to get out into the community to get the word out about Glenbard. Please take these flyers and get them to places where people meet: your vet, groomer, even salons are excited to take them. Help spread the word about our great club. And of course more students means we need more instructors-please consider volunteering!

Thanks again to everyone!!

Joan

Windy's Mom Says...It's All About the Love

Training and competing is not just about ribbons and titles. To me, it's the relationship, the love and trust that is built. It's the journey and teamwork-time spent which leads to a balance happy contented team.

I think Windy is content! Had to share this peaceful picture.

Hug your dog! Enjoy the journey!

Joan and Windy

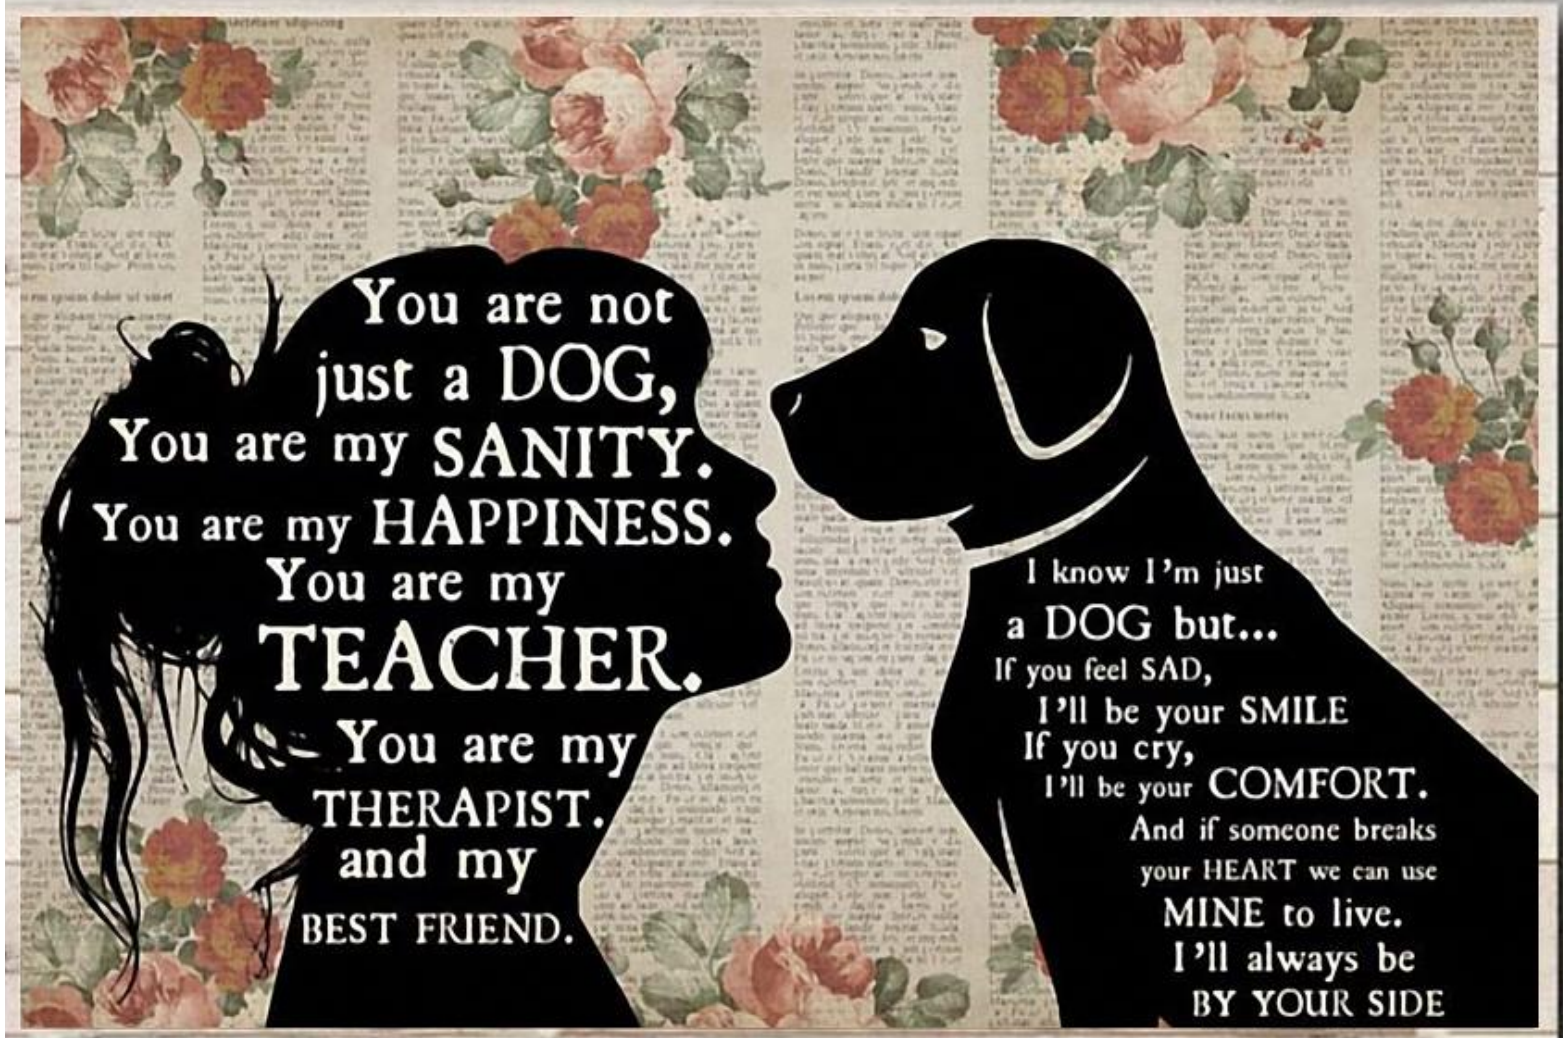

Thank you Laura Plasketes

The Novice Class in Action

Our Novice class is advancing amazingly well! This is a photo of our novice group doing sit and get your leash with over 10 dogs in the ring, having to go across the ring around the other dogs to retrieve their leash and back to their own dogs! Proofing makes perfect!

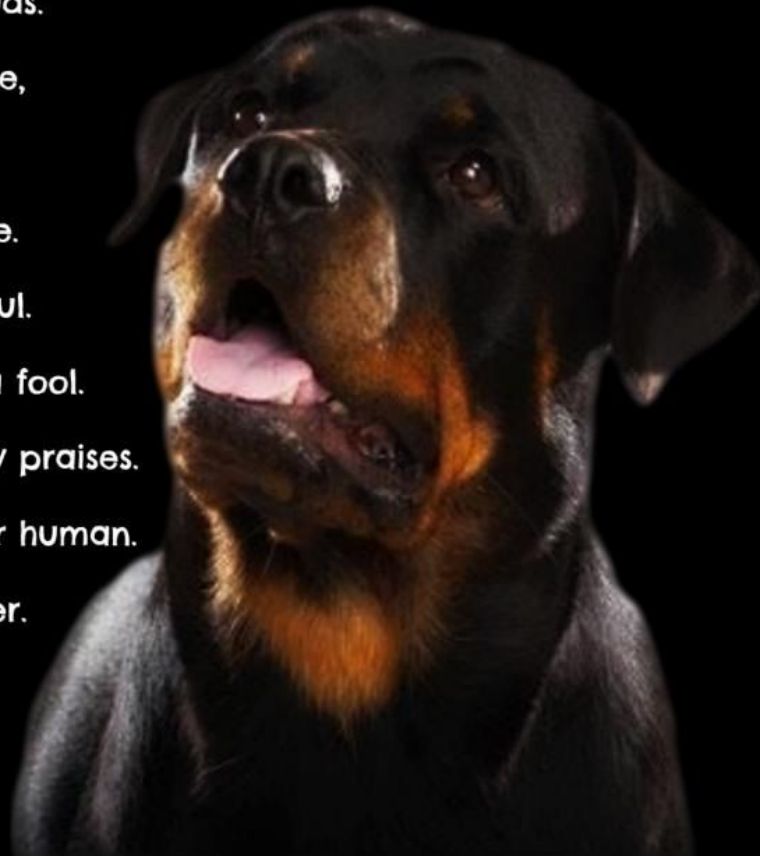

You are not
just a **DOG**,
You are my **SANITY**.
You are my **HAPPINESS**.
You are my
TEACHER.
You are my
THERAPIST.
and my
BEST FRIEND.

I know I'm just
a **DOG** but...
If you feel **SAD**,
I'll be your **SMILE**
If you cry,
I'll be your **COMFORT**.
And if someone breaks
your **HEART** we can use
MINE to live.
I'll always be
BY YOUR SIDE

He is my other eyes,
that can see above the clouds.
He is always ready to forgive,
when I am angry.
He clowns to make me smile.
When I am happy, he is joyful.
He overlooks it when I act a fool.
When I succeed, he sings my praises.
Without him, I'm just another human.
He is my awesome Rottweiler.

Glenbard membership meeting April 4-5-23 at the Fairgrounds and Zoom

Meeting called to order 7:09 PM

Members in Attendance: Pat Senne, Joan Mazat, Mary Ramsden, Pattie Imburgia, Sheila Gardner, Candy Ellis, Sandi Stephenson, Ed Gegenheimer, Gina Horner and Carole Moen.
Shawn Hacker and John Henry arrived later.

Zoom attendees: Kathy Bianchetti, Tyler and Kaeleon Dundek and Laura Setar.

Sandi made motion to approve February minutes as sent Glenbard blast and in March Barks. Pattie seconded. Carole mentioned she miswrote March instead of April for beginning of second quarter. She will fix.

Mary asked who is responsible for picking up after their dogs. The owner.

Mary would like the first class of Puppy 1 to be without dogs. It was approved.

Age for Puppy 1 is 8 weeks to 4 months.

Age for Advanced Puppy is 4 months to 6 months.

You also get to do fun stuff, such as things you would do at home, walking on different surfaces and introduction to some easy Agility equipment.

To qualify for Advanced Puppy you have to take Puppy 1 or be evaluated by instructor to skip Puppy 1.

Beginner 1 is 6 months and up.

Treasurer's report: Shawn gave his report to Joan. The rent was paid.

Obedience & Rally Trials, Pat: Rally Match Thursday. 2 Rally trials on Friday.
2 Obedience trials on Saturday. 1 Rally trial and 1 Obedience trial on Sunday.

Philip and Cynthia Rustad from Minnesota are our judges for the three days.

Someone asked if the fairgrounds charge us for Wednesday night meetings. Joan said no.

Instructor clothing. Pat said instructors get a T-shirt for free. They have to pay for a sweatshirt. It was asked why the shirts were not in the Glenbard green. Liz had decided to change the color to purple as no one wanted a green one.

Changing the club colors was brought up. The green and white colors are stated in the By-Laws. It would need to be a membership vote. Tabled for another time.

There was some discussion as to why instructors have to pay for a sweatshirt. Ed made a motion that instructors should get a free sweatshirt too. Pat seconded. 1 opposed because what if they don't stay for a period of time. Motion passed.

There was also some discussion about members getting clothing. Maybe they should not get the purple to avoid being confused as an instructor. Carole said why not let members pick the color they wanted. Tabled for later.

Secretary Report: Agility, Carole stated she had gotten an email from AKC about a judge's conflict. Betty had resolved it. Carole got a second email from AKC that the June Agility trials were approved. Carole also got an email from AKC that the October Agility trials were applied for.

Carole also mentioned at the March board meeting she brought up a letter she received from AKC asking clubs to donate to Humane Fund. This particular donation would go towards grants for women's shelters that allow them to bring their pets. The board voted to donate \$25.

Carole needs to get the information to Shawn so he can take care of it.

Awards Banquet, Candy & Pat: May 21st Sunday 6:30 PM to 9 PM at Country House on Fabyan Pkwy and Kirk Rd, in Geneva. \$25 per person. We have a semi private room.

Candy will get a list of 4 dinner choices to choose from.

Publicity, Ed: Asked members to spread the word about Glenbard. Be creative and think of other places beside dog related, for example your hairdresser.

We have a \$38 credit from the promotional items Ed put together.

Tails on the Trail at the Morton Arboretum May 7th was mentioned and can we do it. We decided it was too soon and the club should wait until the second one in September. They have two a year.

There are other Dog admission Days at the Arboretum but there are no vendors.

Cantigny was brought up. Kathy said she would help if she got enough volunteers.

Carole said she and Bill could do that one. Pat also said she and John can help. Pattie and Mary also volunteered. You need 4 people to help put the tent up and take down.

Our booth is free.

Old Business none

New Business: Ed is volunteering at West Suburban Humane Society. He said they got a grant to increase their space substantially.

We could see if we can put Glenbard info in their adoption packets.

Carole asked if we could give a discount for rescues. 10% to 25% was discussed.

Tyler made a motion to offer \$99 for the \$130 Puppy and Beginner classes. Pattie seconded. Motion approved.

Social media: We need someone to monitor our stuff. Gina offered to help. She said we need to put our handle on all our handouts. Tyler's wife Kaeleon offered to help with art work for our Facebook page.

If we generate a lot of new people we will need more instructors.

Some discussion on incentive to become an instructor followed.

Joan said our Rally drop in is down. She feels it is because there is no one there to do walk throughs with the people. People do need help in the advanced levels especially if you are going to show.

Laura asked if we will ever have drop in classes again like Karen's Novice class.

Sandi suggested we should raise our drop in prices.

Sandi said the 8 week Open class is \$130. Should we take drop-ins if not full? Gina asked if enrolled people might feel drop-ins were infringing on their time.

Sandi said at Fox Valley after 1 class or 8 drop-ins you can apply for membership.

Pat said the next classes start May 8th for only 7 weeks at a reduced rate so they will end the last week of June.

Some of the kids that come with their parents have been on the stage. It needs to be mentioned that parents need to corral their children. They are not allowed on the stage. Maybe we need a sign?

Laura said there is a 4-H dog show coming up that she hopes some of their kids will participate in.

Brag: Pat got second place scent work, advanced container with 8 year old Boxer Smokey.

Tyler with Cattle dog Luna got their CD at South Side trial in March.

Carole with Doberman Jake got his CD at South Side trial in March
They also got AKC temperament test, ATT, at Stone City in February.

Joan mentioned the Barks deadline is the 25th. Cheri encourages everyone to write something.

Ed made a motion to adjourn. All were in favor.

Meeting adjourned 9:20 PM.

Glenbard Secretary

A close-up photograph of a dog's face, likely a Golden Retriever, with its eyes looking directly at the camera. The dog has a white muzzle and chest, and brown fur on its face and ears. The background is blurred.

“Science has so far been unable to tell us how self-aware dogs are, much less whether they have anything like our conscious thoughts.

This is not surprising, since neither scientists nor philosophers can agree about what the consciousness of humans consists of, let alone that of animals.”

- John Bradshaw

A photograph of two dolphins swimming underwater. The larger dolphin is on the left, and the smaller one is on the right. They are both facing upwards. The water is a deep blue color.

Be kind!

Behaviour isn't "good" or "bad". To the dog, it's an appropriate response according to the conditions to which they're exposed.

The idea that "there are no bad dogs, just bad owners", is not only inaccurate but terribly damaging.

Behaviour is happening in response to environmental conditions... and you & your dog will be part of that too.

With awareness you can change your behaviour & help change the other dog's behaviour too.
Improved comfort for all!

Thank you Liz Mishima

Here is a very informative article by *Jean Hofve, retired holistic veterinarian, author of Paleo Dog*

Slippery elm (*Ulmus fulva*) is a happy exception to the fears and cautions surrounding the use of herbs in animals. In fact, slippery elm for pets is very safe and nontoxic. The part of the tree used is the inner bark, which is soft and stringy. Its texture, however, can make it challenging to use. It doesn't succumb easily to a mortar and pestle, so it may be easiest to buy it in capsule form, which is available at most health food stores or Internet sources. That way, it's already ground to a fine powder and can easily be mixed into dosage form.

Slippery elm contains many nutrients, including carbohydrates, protein, fat, ascorbic acid, beta-carotene, calcium and several trace minerals. These nutrients make slippery elm for pets a beneficial choice, especially for recuperating pets. Another perk? It may stay down when other foods are not tolerated. In fact, slippery elm is known as "emergency" food. George Washington and his troops survived for days during the bitterly cold winter at Valley Forge on nothing but gruel made from slippery elm bark.

Give 1 capsule (per 10-20 pounds), opened up and the contents mixed with warm water, when using slippery elm for dogs and cats daily - this is the **400mg capsule**. Slippery elm powder will absorb many times its own weight in water, so be sure to add enough to make a gruel. This gruel can be given before meals by syringe or eyedropper, or added to baby food, canned food or a homemade diet. It has a mild, slightly sweet taste and is usually well-tolerated by cats and dogs when mixed with food.

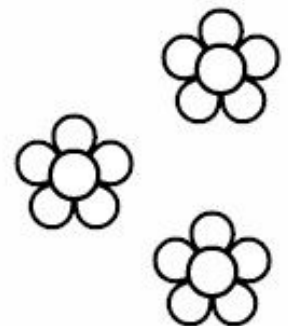

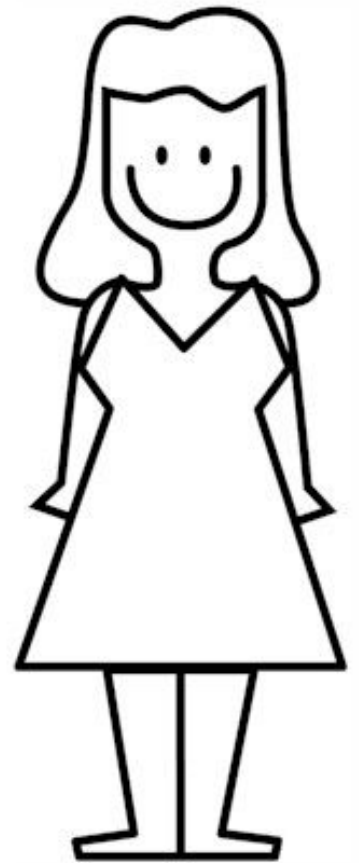

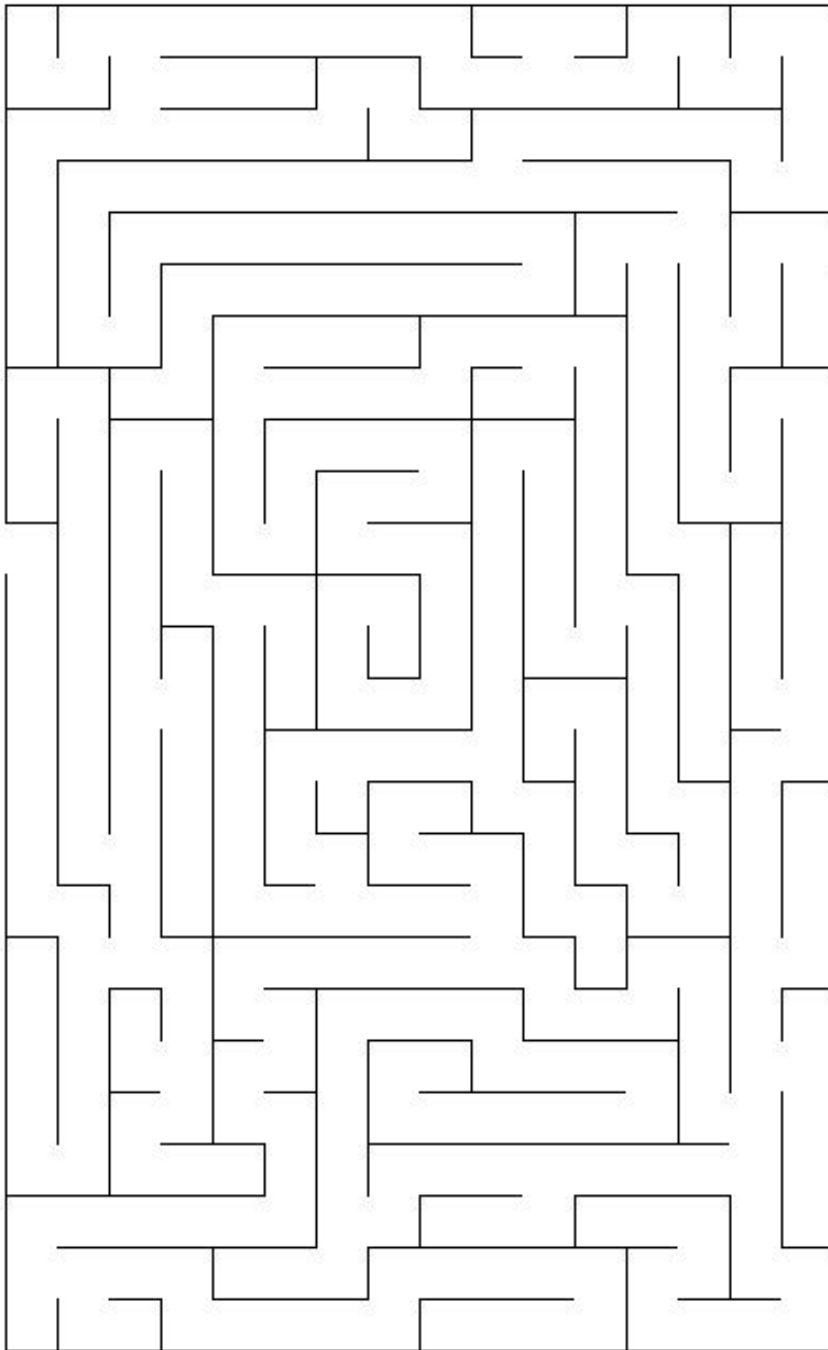

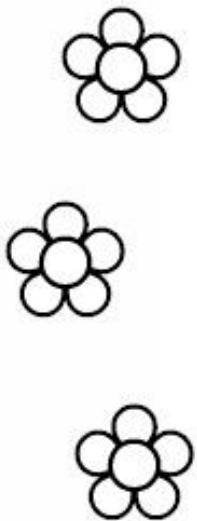

In the gastrointestinal tract, slippery elm acts directly. Think of it as a sort of natural "Pepto-Bismol." (However, Pepto-Bismol itself should **not ever** be used in pets because it contains salicylate, aka aspirin). When it comes to slippery elm for pets, the plant's mucilage content coats, soothes and lubricates the mucous membranes lining the digestive tract. That makes it an excellent treatment for ulcers, gastritis, colitis and other inflammatory bowel problems. It's high in fiber, which helps normalize intestinal action. This means it can be used to relieve both diarrhea and constipation.

In the case of cystitis (bladder inflammation), slippery elm is thought to soothe the bladder lining, even though there is no direct connection between the digestive and urinary tracts. But its antioxidant and anti-inflammatory components may be at work. Slippery elm contains magnesium, so it may not be a good choice if your pet is dealing with an elevated urinary pH or if a bacterial infection is present. Why? Because struvite (magnesium ammonium phosphate) crystal formation may be a risk, causing more serious urinary problems.

Medications should be given 1 to 2 hours **before a dose of slippery elm**, since the mucilaginous coating it creates can inhibit their absorption. Because it is itself so nutritious, there is much less concern about giving it with or near feedings. Most informational sources don't make any distinction regarding timing of doses.
