Classes Resume Jan 9, 2023

BARKS

Ike says 'TAKE A BOW'

A Note From the President's Article Bag

Dear Members,

First of all, it is not our faithful editor's fault BARKS is late. She can only work on submissions she has and this is on me. It's been a heck of a month since Halloween with a cold I can't shake (not COVID), trials, training, work, and of course family who have been a bit abandoned with November being one of the biggest trial months.

Classes- our classes are FULL! Our students are happy, and our instructors are TOP NOTCH! What would we ever do without the backbone of GABOC, our instructors!? Without this loyal team dedicated to the betterment of our K-9 community, we would not exist. I think I thank the instructors every month-thanks well deserved. I also think I call out the need for support for these instructors every month too. PLEASE consider at least contacting us to put yourself on the sub list. **We honestly do not have one and the instructors sub for each other, working double duty if one of us is ill or has to work, etc. Please consider mentoring new members on how they may take the reins up in the future. Your experience is truly needed.**

Storage- in preparing for our trail, the committee needed to go into our old storage bin in building 4 at the fairgrounds to find needed materials. Realize that some of these things have remained undisturbed since the start of COVID. OMG- a dusty mess. I will be contacting the fairgrounds for proposed dates as to when a team can get in from the club to clean up, discard, and organize. Remember the shut down was sudden and preparing for long term storage was not possible. Many hands make light work. I know it does not sound pleasant but any job can be made fun with friends!!!! Will you please help by signing up for the committee? Maybe we can all have a nice lunch together after the project is done to celebrate!

Our trial- our trial was a huge success! Special, special, special thanks to Pat Senne. She deserves the volunteer of the year award. Without her dedication... I don't know what to say! Thank you to Candy Ellis who arranged the BEST TRIAL LUNCHESES EVER and made sure our judges had a good breakfast that was not served on time early enough from the hotel. Thank you to Liz Hixon who worried over the steward list and made sure they were all prepared to assist our judges and help our competitors have a smooth transition into the ring! Thanks to Lynn Heidinger and her team at Francis Field who helped us find a location and take on the day! And our stewards- wow! Old friends like Nancy Lee and Dave Crawford stepped in to help for the joy of the trial. New members Annie Kane, Laura Woll, and Ty Dundek, Mary Ramsden, and Pattie Imburgia just came, saw, learned, and succeeded as valuable stewards without hesitation. AMAZING and inspiring to see that the club will see great leadership as they progress with their dogs and their goals and are willing to roll up their sleeves and dive in! Hugs to these volunteers and to all of our loyal members who stepped up to make a great day for the obedience world.

Another call out- to those who are unaware, Laura Setar and Tom Stephenson have been teaming up teaching 4H. This has been going so well that they are seeking to add a second class!!!! The future of dog training is in great hands with this team engaging the children and teaching them well!

I really believe we have such a great group of members who work so well together to team up for success!

See you around the ring!

Novice Standard Agility title with a
First Place!

BRAGS

It has been an amazing stretch for Windy. I am blessed by this wonderful dog who has excelled beyond anything I could have imagined. After the Forest City show in September, Windy went to the Medallion Rottweiler Club and earned legs 7 & 8 toward her PUDX. What fun!

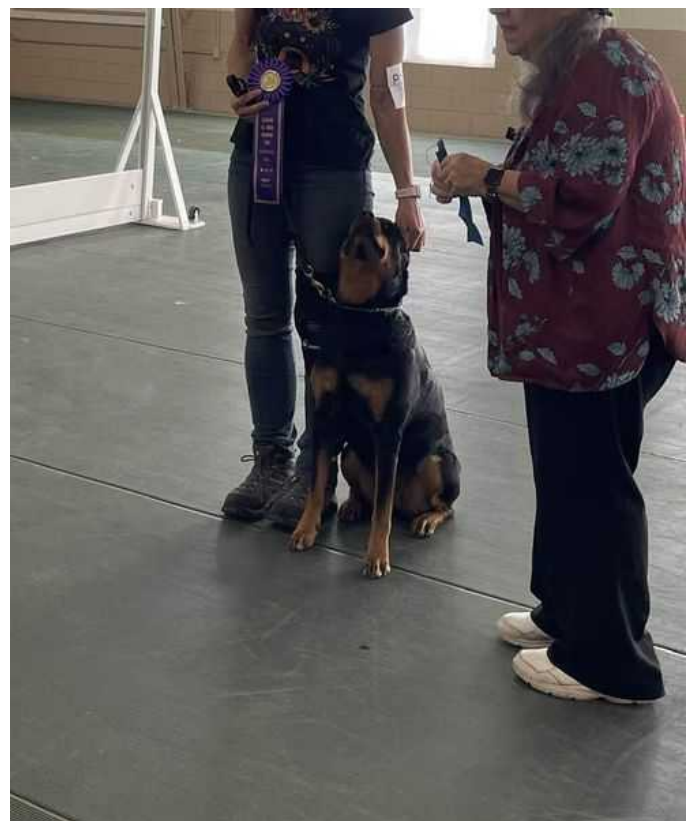

Then came our trial. This was getting real.

Day one was a bit rough! The judges' pencils were sharp, it was an incredibly "windy" day with *strange weather*. She spent the entire day in her crate the day before from 6:15- to 7:30 p.m. plus ate dinner in her crate with short times out on Friday with set up and the Rally trial, but she hung in there and qualified in both classes for leg 9! Oh my!

Sunday of our trial- I was nervous and felt like heck. She charged out of the house like she was on fire to load into the van and she knew that today was her day and so it was with two more blue ribbons and wonderful scores. My dream was to always have a UDX Rottweiler. Her "P" is even better! She has honored me even more as she achieved it with six trialing days- 12 qualifying scores, 6 legs in a row! I love her sweet expression looking up at the ribbons- knowing she's done well- knowing she made me happy.

We went off to the Car Dun AI trial the following weekend. She added some humor to her repertoire when she came front on her drop on recall, put her paws on my shoulders and licked my face instead of sitting front! She picked up two more legs to start her PUDX 2! This made 8 consecutive PUDX legs without an NQ!

And to round off the
November trials off
to Fox Valley.

My exhausted girl had
a rough first day but
regrouped to earn a
193.5 in P Utility, and
leg 3 of PUDX 2 day
two digging deep!

She's not the
highest score,
she's not the
fastest, but she IS
**THE MOST
LOVED!** Thank
You Good Girl, I
owe you!

**EXERCISE
FINISHED!**

Mars also went to the GABOC trial and went back to Rally to finish in three consecutive attempts to earn his RE!
Marzie earned four legs, two with third place. I am so proud of my fluffy boy and now it is **his turn** to get serious in obedience! Beautiful Boy! It has been HARD leaving him home this month but we have some polish to do before he can move on to his UDX. We'll get there!

Mondenkind's Majestic Phaze UD RE TKN CGC

4 Thanksgiving Pet Tips!

STUFF YOURSELF, NOT THE PETS!

Rich Thanksgiving foods can cause upset stomach and pancreatitis.

NO PETS IN THE KITCHEN!

A hungry pet can get in a lot of trouble near the culinary creation.

NO ROOZE HOUNDS!

Don't leave alcoholic drinks or open containers within paw's reach.

TAKE OUT THE TRASH!

It may be tempting for your pet to knock it over and have some leftovers.

Happy Thanksgiving!

Created especially for the hospitals of
DVM multimedia[™]
DYNAMIC VETERINARY MARKETING
www.DVMMultimedia.com

Travel can be stressful for pets, ask your veterinarian about supplements, behavior modification, and medications that can help lessen anxiety.

Remember: A healthy dog needs to exercise an absolute minimum of every three days (every other day is better; **every day is ideal**) at an intensity that elevates his heart rate for 20 minutes to maintain cardiovascular conditioning and muscle tone. If your dog is out of shape, you'll need to start slow and build gradually to 20 minutes per power walk.

Power walks — Power walks keep your dog's frame strong, his weight in check, and help alleviate arthritis and other degenerative joint diseases. These walks can also be an essential method for ensuring your dog gets the exercise he needs, as long as you're consistent with them.

Mentally stimulating walks — Most leashed dogs don't get to spend nearly as much time sniffing and investigating as they would like, so allowing your pet some time to explore is good mental stimulation for her. These walks allow her to stop, sniff, investigate, and pick up and send pee-mail, Dogs accumulate knowledge about the world through their noses.

Change-of-scenery walks — Instead of heading outside in the same old direction, instead, buckle your dog in and drive a few blocks away or to a neighborhood park or nearby hiking trail for your walk. Both you and she will find new things to see, smell, and experience.

Walks with friends — If your dog is comfortable around other dogs, consider meeting up with neighbors or friends with dogs for group walks. Everyone on two legs and four gets to socialize and exercise simultaneously, and dog parents can also be valuable resources for one another.

Blue &

Windy's Mom Says...

Blue's Mom Says... Don't Forget Our Senior Pack Members

(Sorry Windy, I'm Blue's mom too! He gets a spotlight this month)

I most likely have written on this subject before but hey, I'm going to do it again. Everyone probably knows I have an odd little Pack. Windy the Leader (Rottie), Mars Second in Command (Border Collie), and then of course "Old Blue" (ACD). Even though Blue is the oldest, he is the low man in the pack but loved nonetheless even though he and I have not always seen eye to eye. Blue is retired unless I get to that nosework that is on the to do list but he still comes to class every week and has a fun run at our private lessons with Dave Parison. Why- some ask?

He's older, not dead. He lives to work. He needs to feel his value even though his trial dates are long behind him. He needs to hold his place in the pack and not be removed from it. Years of OB and Rally, practice practice practice and how does it just shut off for him just because goals are met. It is not his error (well, the OBNOXIOUS barking is) but it is not his fault that repeated sits are more of a challenge and jumping doesn't appeal to him all that much on some days. His time can be just for fun and silly or sometimes we just get back to work! Monday after a long time of not really considering this, I set him up for directed jumping. He executed it magnificently and he knew it was right! You could see him beaming with pride.

My son likes to work him in the novice pattern from time to time. Not easy for a 10 year old to direct a stubborn Heeler for sure. He matched him at Fox Valley this Thursday and after the match was over I coached him and Blue in the utility ring thinking I could just help him on about turns and a full recall. Just setting them up in the center of the ring, JH called Blue front and much to our shock, instead of coming straight, Blue had a flashback to the glory days and his time in that ring, decided to jump the high jump set at 24" and then came front, proudly wagging his tail. We were shocked and worried as he is only a 20" dog but the flash of what he was once asked to do was clearly in his mind and his enjoyment was quite clear to us. He went home a very satisfied boy!

Consider taking your old partner for a spin around the practice ring. It's a joy!

Joan and Blue-Dog UD RM CGCA Achiever Dog, GABOC Hall of Fame

Detector dogs track down lanternflies and beetles

Insect control report - Detector dogs

USDA's PPQ-trained dogs can sniff out these damaging invasive pests.

September 12, 2022

Greg Rosenthal

They're coming to get you, spotted lanternflies and Japanese beetles! Detector canines — trained by USDA's Plant Protection and Quarantine (PPQ) program — are ready to sniff out these damaging invasive pests to detect them early and prevent their spread.

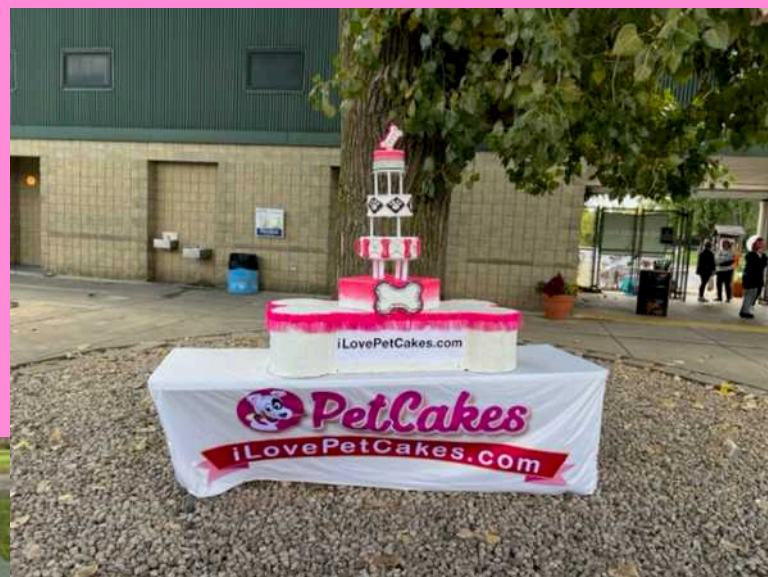

These highly trained dogs represent some of the recent successes of our Agricultural Detector Canines strategic initiative. Its goal is to expand the use of detector dogs to enhance domestic pest surveys, detect pests early and facilitate the trade of U.S. agricultural products.

Spotted lanternfly

The North Carolina Department of Agriculture and Consumer Services (NCDA&CS) took note when the spotted lanternfly (SLF) was detected just north of their State in Virginia. SLF is an invasive plant hopper from China. It feeds on more than 70 types of plants, including crops like apples, grapes, hops and stone fruits, as well as hardwood trees. While SLF's highly preferred host is the tree of heaven, vineyards have been the most adversely affected agricultural commodity so far.

<https://www.nurserymag.com/article/detector-dogs-track-down-lanternflies-and-beetles/>

GABOC took part in the festivities and the fundraising efforts of A Dog Wedding held at Kane County Cougars stadium organized by a group called Diamonds In The Ruff and Robust Promotions! The goal was to break the record for canine couples to get married... the Guinness Book of World Records highest score was 179 couples from a town in Colorado! We didn't break the record, but a fun time was had by all who attended. The fundraising cause was to raise money and awareness for Veterans suffering from PTSD and to help them receive trained shelter dogs as emotional support animals. We set up a booth there to get the word out about our club and our dedication and obedience training for dogs in the community.

Glenbard membership Zoom meeting Oct 19, 2022

Attendance: Candy Ellis, Joan Mazat, Karen Heitz Gail Meyers, Liz Hixon, Gerry Bara, Sandy & Tom Stephenson, Mary Ramsden, Pattie Imburgia, Nancy DiMenza, Patty Nelson, Randall Shane, Laura Plasketes, Kathy Bianchetti, Bette McMillan and Carole Moen.

Carole tried to send the minutes earlier today and was only able to send to ½ the membership. They were the same as published in September Barks.

Minutes were approved as published in Barks - Gerry said he read today's minutes email and made the motion to approve them. Sandi seconded.

Carole also told Joan that Bette's email was still wrong. Carole was able to add Bette's correct email but for some reason she could not delete the old one. She didn't know if that could have any bearing on why the second batch of emails would not go through.

Joan thought she had corrected it. Sheila's was fine now. Joan will see what she can do to fix it.

President's report: Joan will try for in person option at the next meeting.

Monday classes have started and are full.

Patty Nelson is assisting with Karen Schlipf.

The new people in the Novice class were catching up with the students that have been in class longer. Hats off to every instructor.

Vice President's report: Karen could not attend as she was on her way home from the vet. She had emailed Joan her report.

We have several new members, that need to be voted in:

Pattie & Mary are both teaching for us.

Pattie is a German shepherd club member and also trains at Francis field.

Mary Ramsden trains at Francis field

Francis Soresi was a previous member and has Dalmatians. Francis specializes in training deaf dogs. He was assisting in two classes. He suffered a meniscus injury and had surgery. He won't be back until after the holidays. Laura Woll with Allie, her flat coated Retriever puppy have been through Gail & Karen's classes. She found out about Glenbard online

Kathy LaBash needs to fill out application.

Gail made a motion to accept all. Kathy seconded. Motion carried.

Treasurer's report: Shawn was at another meeting. Joan read his report. Contact Shawn for the details. Shawn requested that he wanted to wait until November to do the P&L report.

Shawn did not have the Agility numbers but it looked like we had a full house.

Gail said treasurer's report gets filled for audit.

Registrar's report: Pat was unable to be present. Joan read her report.

Classes are full. The decision was made due to the demand to open classes to 10 students instead of 8. Now that we have two instructors per class this should work.

The last classes run October 17 to Dec 12.

Dog wedding: Joan can't find report Pat's report so the people that attended spoke.

Candy and Joan were dog stewards. Kathy, Pat and Carole were at the booth.

Joan felt Leslie didn't put enough focus on the why they were doing the event. It was to raise money for soldiers with PTSD by training and placing a rescue dog with them.

Gail had spoken to Leslie about getting the word out and advertising the event. Leslie was not interested in Gail's help.

Kathy had fun and said all the dogs were so well behaved. We had some people stop at the booth and gave them information.

Carole overheard that a couple gals from other clubs said they didn't hear about the event in a timely fashion.

Candy said it was not well advertised. She mentioned the dog were not allowed to be dressed on the field. It was fun. There were 66 couples

Matches: Joan reported the October match was good, but not as busy as the previous one.

Penny helped in Utility.

Cathie Haake, Sandy and Candy also judged.

The next match is our trial match, Friday November 4 at Francis field.

We will not offer Rally at the match due to the double Rally trials earlier.

Agility. Betty reported it was a good turnout. Lots of entries; 15 or 20 more dogs than the last trial. It ran smoothly. The kitchen was good.

Candy who volunteered at the trial said it was a good trial with lots of new titles.

The next one is the end of January. At Cardinal

Gail mentioned she felt some of Beginner 1 puppies out of the puppy class were not old enough to do Beginner 1 work. They are 4 & 5 months old. She didn't feel they were ready for the next level.

Liz spoke on the subject.

Randy said he would have gone somewhere else if he had to wait due to an age restriction.

Carole felt that some of that depends on the ability of the owner. Maybe do a case by case.

Joan said may we could evaluate the puppy to see if it could go on to Beginners.

Laura said good breeders start socializing their puppies at 3 and 4 weeks of age; and that conformation shows have 4 to 6 months classes.

Mary suggested she and Pattie teach two puppy classes. The second puppy would be Star puppy.

Fox Valley has puppy and advanced puppy.

The decision was made for Pattie and Mary to teach puppy and advanced puppy.

Awards committee (Joan, Pat, Candy and Bette): Since Pat was not there the report will wait.

Joan will have Cheri get the sheets out in the next Barks.

Trial report: Joan, Liz and head Pat.

Friday, the night before the dog wedding, Joan was told the fairgrounds booked our building for Saturday of our trial.

Jim M suggested we start at 6pm on Saturday. That would not work. The trial would go too late.

Joan called Lynn H to get contact information for Francis field.

Francis Field was \$1,400 for the 3 days

Lynn is charging us \$100 rental for her mats and equipments. Bryan who does her match will do our set up for \$50.

No tear down because Lynn has Monday night classes.

Liz needs more stewards. Who wants what?

Mary can table

Patty will gate.

Gail can table on Sunday.

Nancy can help Friday.

Sandi said Marytherese will help. Liz asked when. Joan said she will find out.

Joan will reach out to Tyler with cattle dog Luna for help, and maybe his wife too.

Liz tried to get people at meeting to help.

Liz had also texted Lynn to see if she knew anyone that would steward

Liz would like 3 stewards per ring.

The trial starts Friday 9AM; Saturday and Sunday 8 AM. Randy reminded us Saturday night daylight savings time ends.

Pattie suggested Joan send an email to Pam W at the German shepherd club to see if anyone might be interested in stewarding.

Monday we are off after trial. What about Tuesday?

Liz said lots of people have signed up for Friday match.

Cheri told Joan our ring gates are showing serious wear. 3 are broken and 1 was repaired. One is beyond repairs. She would like to order 4 new ring gates and at least 5 extensions. 8 extensions would be better. Sandi added that the extensions were needed to completely close the rings.

Joan estimated the cost at \$600.

Gail motion to buy what is needed. Sandi seconded. Motion carried, unanimous.

Nominating committee report: Sandy said all the officers agreed to stay on.

Carole stated the committee decided to replace Lori since she told Joan she needed a leave of absence and has not responded to phone calls or emails from a couple people.

Carole said they asked Candy. Candy accepted. She will replace Lori. All the other board members are staying on. Pat, Gerry, Kathy and Sandi,

Carole stated that none of the board members know what their terms are. During Byron's presidency the board members had not been given terms.

Carole felt the five board members should each get 2 years with two up one year and three up the following year.

Carole suggested letting the new board decide who was going to have what. For now do 1 year and 2 years.

There was some discussion about not being able to change this because it was addressed in the by-laws.

Carole suggested a motion for now to get terms in place moving forward.

Sandi second seconded it. Motion passed.

Sandi wanted to thank Tom for helping with the match. She added Tom is helping Laura Setar with the 4H kids and having a good time.

Joan thanked both of them.

Joan asked if there was any business from the last meeting to discuss.

Carole stated some old business from last meeting was Candy had asked about clothing. Any thoughts on it?

Carole asked if Candy wanted to discuss the Xmas party now or at the November meeting. Candy felt it could wait until the November meeting. There was some discussion as when to have it.

Sandi suggested Tuesday and Gail said no because some members are at other clubs

Brags: Joan's Windy got 4 PUDX legs. Two were at Forest City and two were at the MRC trails, with a 197 in preferred Open. Windy needs 2 more legs for her PUDX title.

Sandi's Secret won open B and placed in Utility but not at same shows.

Gail made motion to adjourn at 8:51 PM. It was unanimous.

'Tis the Season for **PET SAFETY TIPS!**

COOKIES AND CANDY

Consumption of chocolate can cause agitation, vomiting, diarrhea, high heart rate, tremors, seizures and even death.

MACADAMIA NUTS AND WALNUTS

These nuts can cause severe lethargy, increased body temperature, vomiting, tremors, joint stiffness and the inability to walk.

HOLIDAY DECORATIONS

Tinsel, ribbon and similar decorations can cut up the digestive tract and cause intestinal obstruction. Ornaments should be kept off low-lying Christmas tree branches.

LIGHTS AND CANDLES

If your pet can reach them, they may be a fire hazard if knocked over.

ALCOHOL

Alcoholic drinks may cause vomiting, disorientation, diarrhea, lethargy, lack of coordination, difficulty breathing, tremors, coma and seizures.

GRAPES, RAISINS, AVOCADOS, ONIONS AND GARLIC

These can cause lethargy, lack of appetite and vomiting.

ARTIFICIAL SWEETENERS

Sugarless gum and artificially sweetened treats may cause vomiting, lethargy, loss of coordination, seizures and liver failure.

FATTY TRIMMINGS AND BONES

Pets may experience vomiting and diarrhea. Fatty foods can also promote pancreatitis. Swallowed bones can cause stomach perforation and painful constipation.

HOLIDAY PLANTS

Holly, mistletoe and poinsettias may cause irritation, vomiting, diarrhea and heart arrhythmia in both cats and dogs.

ELECTRICAL CORDS

If chewed, live electrical cords can cause burns in or around a pet's mouth, difficulty breathing, seizures and cardiac arrest.

HAVE QUESTIONS? PLEASE CALL YOUR VET. FOR SUSPECTED POISONING, YOU CAN CONTACT THE ASPCA POISON CONTROL HOTLINE: (888) 426-4435.
